

***Leading manufacturer specialty lamps seeks acquisition***

Woodbridge Europe, on behalf of our client, Ushio Europe B.V., is conducting a comprehensive acquisition search for a unique and innovative high-tech company in (Northern) Europe with a clear link to the special lamps industry.

Ushio Europe B.V. is part of USHIO Inc., established in Japan in 1964. Ushio Inc. started out in 1964 as a manufacturer of industrial light sources and has since evolved into a "creator of light" that offers light source units, devices, systems and light solutions. Ushio has an annual turnover of around 1 billion Euros. In Europe, sales companies are located in The Netherlands, France, Germany and United Kingdom, and production plants in Germany. # USHIO

***FROM THE WORLD LEADER OF SPECIALITY LAMPS***

The Ushio Group has established groups of highly qualified professionals with the required expertise in various countries and regions throughout the world as it pursues the development and provision of light products and services of paramount quality. Products of particular note include digital cinema projectors produced by the Christie Digital Systems (CDS) Group and Extreme Technologies GmbH developer and manufacturer of high power extreme ultraviolet (EUV) Sources for the semiconductor lithography market both of which are becoming market-leading products. Such new business domains have been made possible through collaboration between Ushio, which possesses an abundance of unique optical technologies, and a host of companies in Japan and overseas that excel in their particular fields.

Ushio Europe is conducting a comprehensive acquisition search to broaden the product range. Ushio's resources and management philosophy will allow the acquired company to reach its full growth potential. Multiple M&A options are negotiable.

Woodbridge Europe welcomes inquiries from qualified businesses interested in partnering with Ushio Europe.
